

February 20, 2020

Dear Property Owner:

This spring/summer of 2020 the City of Sheboygan is going to be installing new traffic signals at the intersection of Union Avenue and South Business Drive. The new traffic signal design will increase efficiency and safety at this intersection.

As part of the installation of the new updated traffic signals at this intersection the City of Sheboygan is also going to reconstruct the intersection of South 17<sup>th</sup> Street and Union Avenue. This new intersection design will consist of South 17<sup>th</sup> Street having access as right in and right out only to and from Union Avenue (see attached drawings). The new intersection design will also increase efficiency and safety at this intersection.

I have scheduled a public input meeting to discuss these projects. The location, date and time of this meeting is listed below.

King Park Pavilion  
1617 South 7<sup>th</sup> Street  
March 3, 2020  
4:00 p.m. to 5:30 p.m.

If you cannot attend this meeting please email me or call me with any questions you may have. My phone number is 920-459-3440 and my email is [ryan.sazama@sheboyganwi.gov](mailto:ryan.sazama@sheboyganwi.gov).

Sincerely,

Ryan Sazama, P.E., AIA  
City Engineer
